ELECTION AND TRAVERSE IN RESPONSE TO RESTRICTION REQUIREMENT

Bellevue, Washington 98004

March 29, 2006

TO THE DIRECTOR OF THE PATENT AND TRADEMARK OFFICE:

The following is in response to a Restriction Requirement Office Action mailed March 01, 2006, in which the Examiner indicated that the above-identified patent application is subject to a restriction. The Examiner states that this application contains claims directed to two groups of patentably distinct inventions. He notes that Claims 1-13, drawn to Invention I, are related to a method for scheduling appointments to do a job, classified in *Class 705, subclass 8*, while Claims 14-47 are directed to Invention II and are drawn to a method and system for scheduling a plurality of jobs, and also are classified in *Class 705, subclass 8*.

Applicants traverse the restriction for the reasons set forth in the Remarks that follow, but **hereby affirmatively elect Invention I, as defined in Claims 1-13**. This election is made subject to applicants' right to file a divisional application directed to the non-elected claims during the pendency of the present application. A listing of the claims is set forth below, for the convenience of the Examiner.
